

Loki Infiltrator – Aluminum – Painted Mask

Thank you for ordering the Loki Infiltrator, painted mask! Please read below for detailed information about the mask, and how to get it ready to wear. If you have any questions, please don't hesitate to contact me at HauntedKnoll.etsy@gmail.com, or via the Etsy convo system.

Included with this shipment

- Fully painted and assembled Loki mask, with lights
- Foam padding
- 1 x CR2032 battery

About the mask

- The mask is cast as a 2-step process
 - The armor is cold-cast aluminum, using Smooth-Cast 325, heavily mixed with fine aluminum power.
 - The rest of the mask is Smooth-Cast 65D, a semi-rigid plastic resin. It isn't *fragile*, but it should be treated with reasonable care.
- The armor is polished with 0000 Steel Wool, followed with Mothers Mag & Aluminum Polish.
- There is no paint on the armor pieces, however it has been buffed with Museum Wax, to prevent further tarnishing.
- The rest of the mask was primed with 3M Bondo Hot Rod Black Primer
- Color is applied in several steps, using acrylic paints

Preparing to Wear

For a customized fit, the included padding should be glued to the inside of the mask, wherever is most comfortable for you. The padding typically works best cut into smaller squares, and added above the eyes, and on either side of the cheek area. If you need to trim the padding, it is best to do so with an extremely sharp knife, e.g. X-Acto.

The attached elastic strap may be too long. Adjust it as necessary, and trim the excess, if you wish. Be careful not to go too short though, so there is still a bit left and won't accidentally pull loose. After cutting with scissors, it is a good idea to singe the cut edge with a match/lighter, just to help prevent fraying (don't light it on fire though!).

The included battery must be inserted + side up, as shown. A single battery should last about 8 hours of constant use, before beginning to fade. CR2032 batteries are fairly expensive retail, so contact me if you'd like to purchase more; I get them at a significant discount.

Thanks again, and send me an "Action Shot" of the mask; I'd love to see it!
